

The Suspended healing

---

Therapist

*by* Olivier Borgognon

**Pay it  
forward**

# Introduction

---

My name is **Olivier Borgognon**, born in Switzerland in 1975, widower, father of amazing 21 year old daughter & two step-children. I dedicate my time and projects to bringing awareness, guiding people back to well-being and reconnecting with the inner calm within them through energy and therapy work.

The world is in pain, at war, not only externally, but internally, fear is entering households, minds and worse, it's starting to impact physical bodies with illnesses and diseases from constant stress and pressure from the last few years.

As much as we would all like this to go smoothly, there are many things we have no control on. However we can control what's inside us... Our emotions, feelings, triggers & actions.

As a **Master Practitioner in OMNI Hypnosis, Simpson Protocol Certified Hypnotherapist & certified energy Healing therapist**, my skills & expertise is what I call my personal superpower. I can guide people towards a space within them, where peace, calm & flow allow them to focus on positive change.

By triggering these changes within people, each and everyone of them can then bring their own awareness to those in need of support or kindness.

The project i'm about to introduce is unique, innovative & life saving. It brings light **when & where we need it the most**. I have faith in **Networks**, in **people**, in the **corporate world** & in our ability to make outstanding changes when complex times come to us.

So with no further ado, let me introduce you to the suspended healing Therapy "Pay it Forward".

# The Pay it Forward Project

---

---

# A Nomadic & Remote healing service

---

**T**he Pay it Forward Project is **an innovative yet ancestral concept** brought back to life. In ancient times, doctors, healers, and therapists would go from village to village, and provide their services to those who asked for them.

Most of these ancient healers would live **a nomadic lifestyle**, and spend time near energy sources, nature, forests, seas, volcanos, or what we could call Energy Vortexes.

Money, being a current financial counterpart in our economical system, it seems important to note that this was not always the case, and during those times, it wasn't **the essence of what healing** was about.

**Healers healed**, fishermen fished, blacksmiths forged, to provide their skills and services to the world.

With The Pay it Forward Project, my aim is to **blend in modern times, with ancestral knowledge**, and return to the essence of healing. **A service available to everyone**, whatever their finances, whoever they are, wherever they are in the world.

Healing should not be unavailable to those who can't afford it, it should not be for people with money only, or people with insurance.

**Health is our birth right**, Feeling well, being well, connected to our body, our emotions, to what surrounds us should not be linked to our social status, or who we know, where we live, or any other factor. **It should just be available**, full stop.

The Pay it Forward Project **fills this gap**, and provides Hypnotherapy sessions, and Energy Healing sessions, **on site as a nomad** based on my Van location, **and distant/remote via VideoCalls** anywhere in the world.

Healing sessions are provided in **French, English and Spanish**, covering an extended amount of the population.

People in need of a session can **book online or by phone**, and will **receive a quality treatment**, healing sessions and hypnotherapy services wherever they are, may this be at home, in a hospital, or **wherever they may need to receive healing**.

---

# Suspended or Hanging healing

---

Considering we can't live without money, and barter doesn't cut it in 2020, The Pay it Forward Project is focusing on the system of hanging or suspended healing.

You might have heard of this system for food or coffees. Someone who can afford it, will **"pay it forward"** where someone buys a coffee, and then, when a person who can't afford one comes in, they can ask to drink that paid coffee.

The idea of suspended or hanging healing uses the same system. By people **funding healing and therapy for those who can't afford it**. These people can then get free access to these sessions.

This loops the ancient bartering or healing system with the modern one where money is required to get access to our general services and food.

## So, how does this work for healing?

**Suspended healing** works the same way as the suspended coffee. Someone takes over the financial part of healing, in order for other people to receive a healing session. A person can't afford it, it's ok, it's paid for, no guilt, no discomfort, **we help each other** as human beings, for no other reason than helping each other out, as if it was just natural, a purpose.

## How is it funded?

The Pay it Forward Project is going one step further than people paying for people.

One of the gifts that corporations, local businesses and global companies can offer the world on top of what they offer as a company, is **change**, and change comes with one simple word, 4 letters for a better world - **HOPE**.

Yes, **Hope**, and you may ask yourself how hope comes in as a business owner?

I believe in **mankind**, in hope & in the loving nature of every individual, or corporate business. Somehow i'm a very down to earth utopist with an indecent love for our species.

My firm belief is that I can provide **free healing every year**, to those in need, with the financial implication of managers, the corporate world or non-profit seeking investors.

It doesn't take millions, and let me **show you how easy it is**.

# Let's talk numbers

For such a project to take place, money is an energy, and it doesn't take much yearly. This covers the basic costs and a few extras making healing more efficient. These funds could come from a Top Manager, a company, a private or public fund, or any other source.

Can you believe with 75'000 Euros per year I can provide **free healing, well-being, relaxation and stress release** to individuals & groups **during 1 whole year.**

- 1 investment of 75'000 Euros per year
- 7 investments of 11'000 Euros per year
- 75 investments of 1000 Euros per year

No healthy people, no workforce, no workforce, no business, **it's your superpower**

Description	Period	Cost	Yearly
Purchase of a Van, Solar & Wifi system	0.25	60000	15000
Van Swiss registration	1	600	600
Van Insurance	1	1800	1800
Services & tires	1	1200	1200
Fuel	12	200	2400

Monthly Rentals for Group Healings	12	200	2400
Extras & unforeseen	1	5680	5680
<b>TOTAL</b>			<b>75000</b>

# Investing in mankind

---

1. I have **invested all my personal savings & belongings** into this project to make it happen. Travelling nomadically, The Pay it Forward Project is an SUV for the moment.

To provide healing, I seek & find nomadic places, **healing centres**, and **provide healing** to people who need it, from the Canary Islands for the moment, but i'll be **moving around Europe and the world** with The Pay it Forward Project.

The key item to this project is **Funding of the van** and the **1st year of services** of the project.

2. I can provide **my skills, my time, my passion**, and the essence of my knowledge to the world. Providing **healing sessions to who needs it**, it could be one of your staff members, a family member, **someone anywhere in the world**.
3. Obviously, as anyone in holistic medicine or alternative medicine, and doctors alike, **we can't guarantee that people will heal**, we are not god, nor do we wish to be, however the **hypnotherapy and energy healing supports the body**, soul and mind in complementary ways to what modern medicine has to offer.
4. In order for me to provide my services, I would like to offer you **the unique opportunity to take part in humanity**.

What The Pay it Forward Project would look like, in powerful energy vortex locations

Invest **in humans**, invest **in mankind**, invest **in love** and in a project that goes beyond self.

5. Together **we are strong**, together **we change the world**. For some people this might seem "too good to be true" & finally who's to judge complexity, the what if's, and the what works or won't.

If i don't **give it all for this world**, for people who need it, where will **I stand with my regrets** when the time comes?

6. So, now the question is, **ARE YOU IN ?** Are you ready to create a **paradigm shift** in who, how, where and when people receive therapy and healing. All this suspended, **FREE for those who need it the most!**

**WE CAN DO THIS TOGETHER! *ARE YOU IN?***
